

## THE SONG OF AWAKE

~ Awake Sangha ~

*From the pure essence  
Seeing people are sinking  
In the deep sea of endless suffering  
Spinning unceasingly with no way out  
From the Infinite Wisdom  
as bright as the sun and the moon  
like a loving mother  
extending her wide-open arms*

*Nothing hinders her  
From penetrating the sleeping minds  
To awaken the Bodhi seeds  
That have been buried in darkness  
The ever-present Bodhi seeds  
Covered by ignorance  
Falling into deep sleep for many lifetimes  
Knowing nothing about the source  
Nor remembering where the source?*

*I have been wandering aimlessly through this  
lifetime  
Fascinated with temporary happiness  
Thay has come, and brought Awake love,  
Wake me up to return, to liberate from birth and  
death*

*Dear Thay! the Awakened Teacher  
your Awake light penetrates into my inner  
mind,  
Your Awake light, shines upon my path to  
return to... Awake source*

*From the miraculous Awake essence  
Give rise to immeasurable love  
Helping Bodhi seeds sprout  
Into thousands of lush green trees  
The ever-present Bodhi seeds  
Now blooming everywhere in the garden  
Emitting delightful fragrance to the open  
sky and earth  
Emitting delightful fragrance to the whole  
world*

*Awake is full of vitality  
Light of Wisdom radiates boundlessly  
Pure and serene  
Emanating thousands of miraculous  
Awake tools*

*Light of Wisdom radiates boundlessly  
True Compassion always wide opens.*
